

Aware of the importance of maintaining a sustainable tourism development, and assuming the principles and objectives specifically adopted at the World Summit on Sustainable Development 2015, COP 21 and the World Charter for Sustainable Tourism + 20, the Hotel Kimpton Vividora Barcelona is committed to carrying out a sustainable management of its activities, through the adoption of commitments aimed at preventing, eliminating or reducing the impact of our facilities and activities, both internal and external, as well as optimizing the sustainability of the establishment by improving its behavior with the environment.

In the same sense, our entity has adopted the following Responsible Tourism Policy, through which it commits to comply with the requirements established in the BIOSPHERE adhesion, which includes, among other things, the legal requirements that regulate the effects generated by the tourist activity.

Likewise, we are committed to motivate and train our staff with training and awareness actions on the principles of Responsible Tourism, to promote good environmental practices in the environment and to participate in external activities, and to report both internally and externally on the progress and environmental actions of the company.

Likewise, our establishment expresses an express commitment to fight against sexual exploitation or any other form of commercial exploitation and harassment, particularly of children, adolescents, women and minorities; and we are committed to adopting universal accessibility measures.

One of our main objectives is to improve sustainable management, assuming commitments to continuous improvement in all areas of sustainability: social, economic and environmental, as well as customer satisfaction. To this end, projects for future expansions of facilities or activities will be subject to criteria of sustainability and efficiency in the use of resources.

This Responsible Tourism Policy will be updated whenever circumstances require it, adopting and publishing in both cases new sustainability objectives.

Signed

Merry Antoja, General Manager
